

“Jefferson” Rail Threader Tongs

Part no. 2310045A & B

This unique high-performance rail threader operates like a conventional rail threader, but has 2 rollers mounted on each jaw of the tong to allow the rail to thread through the tongs.

Features:

- Cast from high-strength alloy steel and magnetic particle tested
- Available with square or hook handles
- All tongs tested to **1.5x capacity**
